ELEVATOR PLATFORM TEP 1658

CAPACITY: 350 kg

OPERATIVE RANGE: 1570/5800 mm

Elevator Platform on ISUZU D-MAX 2WD cab-chassis (or similar vehicle), is built tu lift people and things from the ground to the maximum level of 5.8 meters.

PLATFORM mod: TEP 1658

TECHNICAL SPECIFICATION

Overall width	3050mm	Gross weight Ptf plus vehicle: 4500kg
Height	2680 mm	Maximum height from ground (with stabilizer feet): 5800 mm
Total Length	5145 mm	Operating speed max 30 Km/h
Wheel base	3050 mm	Max wind speed 74 Km/h

Platform

Width	660mm
Length	1400 mm
Load capacity in a central position	350 kg
Load capacity in extreme longitudinal position	200 kg
Load capacity in extreme transversal position	200 kg
Load capacity in extreme position both longitudinal and transversal	100 kg
